Factory Study Tour (No. 3);

**Isuzu Motors Inc.**

**<http://www.isuzu.co.jp/world/index.html>**

Aim ; This FST is focused on vehicles companies in Japan. Isuzu Motors, one of global vehicles companies, concentrates the business in commercial vehicles and diesel engines such as trucks and buses. Responses to environmental issues such as reducing CO emissions and preventing global warming are pressing tasks in the global political and economic field. With such background, diesel engines are attracting worldwide praise and attention. The pursuit of further advances and the associated costs of diesel engine development have led to global technical cooperation and new partnerships among commercial vehicle manufacturer in an effort to lower the individual burden on manufacturers.
