

About Isuzu

Changing global standards, bringing reliability to the world.

Founded in 1916, Isuzu Motors has the longest history of any Japanese vehicle manufacturer. During our years of operation, we have consistently focused on "creation without compromise" in the process of building Isuzu into the company it is today. And now we are boldly taking up the challenge of global leadership in commercial vehicles and diesel engines while maintaining our traditions.

Commercial vehicles to move things and diesel engines to provide the power-these are essential to support people's lives around the world. By expanding our operations across the globe from Japan, Isuzu products now benefit people in over 100 countries.

To ensure the most advanced safety, economic and environmental performance as well as superb service, we are moving forward in product development, quality, manufacturing systems and customer support, which will become the new global standards of excellence.

It is an uncompromising commitment to improvement for better products and a better partnership with the world.

We are Isuzu, a company that is striving to gain the trust of each every person around the world.

Product Lineup

Trucks

Buses
