

2 July 2012

Department of Civil Engineering  
2012 Summer Semester  
Yoshimura Chihiro

*Aquatic Environmental Science*

12. Stream Ecosystem

1. Stream Ecosystem
    - Stream order
    - Channel morphology
    - Physical habitats
    - Flow regime
    - Food chain
    - Primary production
    - Organic matter dynamics
    - Conceptual models
    - Typical characteristics of rivers
    - River environmental management
  2. Exercise
  3. Mid-term Exercise
-
