### Mechanical-to-Electrical Energy Conversion 14. Applications to hydro power generation

#### Hideaki Fujita fujita@ee.e.titech.ac.jp

# **Contents of Today**

1. Hydro power generation

1

- 2. Pumped hydroelectric energy storage
- 3. Small hydro power generation

# Hydro Energy

## **Permanent Magnet Generator**

- Diode rectifier is applicable.
- PMSG is quite expensive.
- It is possible to use the output of the PMSG directly for heating and/or lighting.

#### To be Continued in the Lecture.....
