

Lecture Review

Yesterday, we reviewed your 18 May posters; fundamentally judging them on the basis of how they presented their topic to the audience. The review highlighted issues with information formatting, citations, and style. As it related to the 18 May presentations, the researcher's definition of "summarize" was given in terms of the other two keywords of this term ("assess" and "explain"). Lastly, the plan of work for the second half of the term was presented. Our goal is to write a PRL-formatted paper by August based on the material in your 18 May poster and English abstract.
