

## **Advanced Writing in Physics**

Course No. : PHY.P610

**Periods 1 – 2 (W)**

Lecture Eight Notes

### **Lecture Review**

Yesterday, we went thru the usage of the physics pre-print arXiv; focusing on how we can efficiently find important/trustworthy articles and then where said articles may be submitted. In particular, the importance of the abstract (and it's various formats) was stressed, yet again.

### **Relevant Websites**

<http://goo.gl/FV1TJA>

### **Homework Five**

Over the next week, I will return to you a critique of your 17 May abstract submission. You are to update your abstract in line with the criticisms sent to you. However, if you feel that you do not need to, that is fine. This is an example of responding to peer review. Whatever edits you make, you are to send me the updated version, via e-mail, no later than 12:00 Friday, 11 June.

### **For Next Class**

To be announced.

(If you have any problems accessing the above websites or videos, please let me know).
